

Boquet Valley Central School District

OASIS Sign Ups

Lake View

Session 7

Dear Boquet Valley Parents and Guardians,

The OASIS after school program at Lake View began on Monday, September 9th and continues through the school year. If you would like your child/children to participate, **please fill out the [ACAP/OASIS registration form](#)** on the Boquet Valley Central School District website. Students can also pick up a hard copy version of the registration in the main office at Lake View. This program is rolling enrollment; however, it is split into sessions and students will not be able to participate until a new session starts. Your child **MUST** have a completed ACAP/OASIS form on file before they are able to participate in afterschool, early release day, weekend, or summer programming through OASIS.

The program will run from 3:10 pm to 5:15pm on Monday through Thursday on normal school days and is free to all participants and on early release days from 12-3pm. The aims of the afterschool program are to improve academic performance, improve social emotional competencies, and help Boquet Valley students make successful transitions in school and to careers or higher education.

Each day, students will receive a snack, then participate in gamified academic enrichment, and their chosen program. We aim to provide a safe place for students to get help with their schoolwork, participate in engaging activities with their peers, and have an opportunity to try new experiences. We partnered with Cornell Cooperative Extension of Essex County, College for Every Student, Building Resilience in Essex Families, and other community organizations to provide engaging programming like nutrition education, career and college readiness, STEAM activities, social and emotional wellness activities, pottery, phonics, and so much more for our students.

If you have any questions or would like more information about the OASIS program, please email Program Coordinator Marcail Miller at mmiller@boquetvalleycsd.org. We are looking forward to another great year of OASIS programming. Thank you for your continued support and feedback.

Sincerely,
Marcail Miller
OASIS Program Coordinator

Hello Griffins!

This sign up is for session 7! Your child needs an OASIS registration form filled out and submitted to the Lake View office BEFORE their first after school program. Please use this link for the registration forms: <https://boquetvalleycsd.org/oasis-after-school-program/>
I will also accept them via email or hard copies. If you need help with this or have any questions email Marcail Miller at (mmiller@boquetvalleycsd.org).

This sign up will only count for the 7th (& final session of the year) beginning May 5th - June 5th.

The program will operate as outlined below. If you have any questions about this change then please feel free to contact Marcail Miller.

3:00 - 3:15 PM: Snacks and unstructured play time

3:15 - 4 PM: Academic Support/Enrichment

4:00 - 5:00 PM: Programs

5:00 PM: Wrap up and grab belongings

5:00-5:30 PM: Parent Pick up

Please rank your activities in order of interest for the seventh session. If you only plan to participate on select days then please write that in the notes portion of this form and only mark the programs you want to attend.

Program confirmation emails will be sent out on a rolling basis but no later than May 2nd. Please speak with Marcail if you want to sign up after May 2nd. We usually still have open programs.

Once we have received all submissions, we will place you in as many of your preferred activities as possible.

If you need to submit for more than one child, please make separate submissions.

If you have any questions, please reach out to Marcail Miller at mmiller@boquetvalleycsd.org.

Thank you for your interest and we look forward to a very fun year!

Session 7: May 5th - June 5th activities:

Mondays: Drama

This is for grades 3-5 only.

Join Mrs. George for a continuation of Monday drama meetings!

Mondays: Paper Airplanes

This is for grades 3-5 only.

Get ready to design, build, and fly your very own paper airplanes—while learning math and engineering along the way! In this fun and interactive after-school program, students in grades 3–5 will work on measuring, using fractions and decimals, and following the Engineering Design Process to improve their flying machines. It's a great way for kids to boost problem-solving skills and creativity—all while watching their ideas take flight!

Tuesdays: Capturing Moments - Photography

This is for grades 3-5 only.

Curious about photography? Join Mrs. Bisselle on an adventure all about pictures. What types of cameras are the best, what do you look for when taking pictures and how to build skills to become a better photographer!

Tuesdays: Food Education with Cornell Cooperative (Shannon & Alisha)

This is for grades 3-5 only.

Cornell Cooperative Extension is back for Session 7! Come hungry, ready to learn, and to make a variety of delicious foods! There are a maximum of 15 students. This program will not run on May 13th.

Wednesdays: Pottery

This is for grades 3-5 only.

Join Mr. Caldwell to work on learning more about pottery or to continue developing your potter skills. Max of 8 students.

Wednesdays: Gardening with Cornell Cooperative Extension (Mina)

This is for grades 3-5 only.

Join CCE's Horticulture Educator, Mina in learning about plants! How do you plant a seed, what makes it grow, and how do we know all of this? Join now to find out!

Thursdays: American Sign Language

This is for grades 3-5 only.

Join us for a fun and welcoming American Sign Language (ASL) club where students in grades 3–5 will learn to communicate using their hands, faces, and bodies! Through games, songs, and hands-on activities, kids will build basic ASL vocabulary and explore Deaf culture in an engaging and inclusive environment. It's a great way to grow communication skills, make new friends, and learn a new language!

Thursdays: Environmental Health with Cornell Cooperative Extension (Jake)

This is for grades 3-5 only.

In this exciting after-school program, students will dive into the world of environmental health

through hands-on activities like owl pellet and frog/shark dissections, exploring how animals and ecosystems are connected. They'll investigate zoonotic diseases, learn how bird beaks reveal survival strategies, and play Wildlife Bingo to discover the importance of biodiversity. It's a fun and educational journey into how the health of animals, humans, and the environment all work together!

Please contact Marcail (mmiller@bouquetvalleycsd.org) to get the registration form or answer any questions.
