

# BOQUET VALLEY

CENTRAL SCHOOL DISTRICT

**December 2025**

## **Director of Student Support Services Board Report**

I am pleased to provide this month's update from the Office of Student Support Services.

We have successfully reinstated Medicaid billing districtwide, and I am happy to report that we have already submitted approximately \$13,000 in reimbursements, with additional claims in progress. This represents a significant operational achievement and an important step forward in maximizing eligible revenue for the district.

Our Special Education Department will hold its half-day planning meeting in December. This session will focus on preparing for the annual review season, strengthening the consistency and quality of IEP writing, and engaging in coordinated planning for the year ahead. Bringing the full department together allows us to share best practices and align our work across both buildings.

We have also ordered and received our required SPP Indicator 8 survey materials. We will begin the process of distributing surveys to parents and guardians shortly and will monitor participation closely to ensure meaningful feedback.

Finally, I am very pleased to share that I have created and released a Student Support Services Guide for all teachers. This resource outlines our processes and roles across MTSS/RTI, Section 504, and Special Education. It supports shared language, clarity, and a deeper understanding of our practices, especially for new faculty and those less familiar with these systems.

Thank you for your continued support of our students, families, and staff. Please let me know if you have any questions or would like additional detail on any of the items above.

**Respectfully,**

**Shawn Strack**

**Director of Student Support Services**
